

CHAMPLAIN VALLEY SENIOR COMMUNITY

Assisted Living & Memory Care

Champlain Valley Senior Community Visitation Policy

(updated 17 Sept 21)

CVSC is open for visitation. Here is what you need to know:

- **Reservations are NOT required.** As always, CVSC staff will ensure infection control procedures are followed at all times. In rare circumstances, if there are too many visitors in the facility you may be asked to wait or visit outside until proper oversight is available. We recommend outdoor visits as much as possible!
- **Proof of vaccine and/or negative COVID test is no longer required.** CVSC encourages all unvaccinated visitors to become vaccinated.
- Upon arrival, you will be **screened for signs and symptoms of COVID-19**: temperature checks, questions about and observations of signs and symptoms. You will be denied entry if you have signs or symptoms of COVID-19.
- There is still no visitation in the dining room at the present time.
- All visitors (inside & outside) must follow the COVID-19 infection prevention protocol:
 - Face Masks are required at all times.
 - Practice hand hygiene, sanitizer is provided.
 - Maintain 6' of separation from your loved one.
 - Wipe down areas that are touched with sanitizer.
 - If the resident is fully vaccinated, (>2 weeks after final vaccination) they can choose to have close contact, including touch, with their visitor while wearing a well-fitting face mask and performing hand-hygiene before and after.
- Compassionate care visits, end of life visits, and visits required under federal disability rights law, are allowed at all times, in the resident's room.
- We recognize the desire to take your loved ones out. The CDC and NYSDOH recommend that individuals at increased risk of severe illness from COVID-19 avoid in-person gatherings with individuals with whom they do not live. If you still choose to take your loved one out, you must follow the COVID-19 infection prevention protocol.
